TABLE I.

AREA, HOUSES AND POPULATION

This table shows for each district the number of towns and villages, the number of occupied houses, and the total urban and rural population male and female. The districts are arranged in this and other tables in the order of natural divisions.

Similar figures are given for Pudukkōttai, Banganapalle and Sāndūr, three of the five States attached to the Madras Presidency. The States of Travancore and Cochin also attached to this Government took their own census and are publishing their own reports. The figures of these two States are therefore not included in this volume.

The area of some districts shown in this table differs from that shown in the corresponding table for 1911. This is partly due to the inter-district transfers referred to in the title page of Table II and partly to revised computation of areas and survey.

For the purpose of column 3 (number of towns) cantonments have been treated as forming part of the towns in which they are situated. Villages are those defined as such for revenue administration. Villages wholly included in towns have been excluded from column 4.

Provincial Table I and II at the end of this volume show for each taluk a few of the main statistics such as total population, density, percentage variation since 1901, distribution by religion, and the number of literate persons.

TABLE II.

VARIATION IN POPULATION SINCE 1891.

This table compares the population as ascertained by the census of 1921 with that of the three last censuses. The figures of previous years for some districts differ from those shown in previous reports, for during the past decade changes have been made in the boundaries of some districts, the effect of these changes on the population of the districts has been calculated, and the figures of previous years have been revised so that they represent the population found at the time of enumeration in the area which now forms the district. The 1911 population of taluks entered in Provincial Table I has been revised in the same way.

This table was intended to present a comparison of the population of 1921 with that ascertained at each census since 1871, but in Madras there were in the decade 1901-1911 very extensive changes in the constitution of districts, so much so that in 1911 it was found impossible to ascertain the population of the present districts at censuses earlier than 1891. It has, however, been possible to reconstruct the 1871 and 1881 population of the groups of districts which constitute the "Natural Divisions" of the Presidency and these figures are given in an Appendix at the end of the Report.

TABLE III.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

In this table, as in Tables I and IV, cantonments have been treated as forming part of the towns in which they are situated

Before towns and villages were grouped into classes, the floating population enumerated in encampments, boats, trains, etc., was excluded from the total population shown in the volumes of Village Statistics. This floating population for each district is shown in the last column of the table

WAYS AND VILLAGES OF RUSSIA.

Towns and villages classified by population.

TABLE IV.

TOWNS CLASSIFIED BY POPULATION WITH
VARIATION SINCE 1871.

This table shows the population of towns at each of the last six enumerations and distribution by sex at the last three.

For the purposes of the census, a "town" includes every municipality, every cantonment, and every other continuous collection of houses, inhabited by not less than 5,000 persons, which is of an urban character though not under municipal administration. The numerical test was not, however, strictly applied and nineteen places with a population of less than 5,000 persons have been treated as towns.

The towns are arranged in this table according to their population in 1921, and have been grouped in six classes —

Class	Limits of population	Number of towns	Classification		
			Urban life	Cantonment	Others
I	100,000 and over	2	2		
II	50,000 to 100,000	17	17		
III	20,000 to 50,000	5	5		1
IV	10,000 to 20,000	10	11		7
V	5,000 to 10,000	13	1	1	1
VI	Under 5,000	20	1		1
Total		77	57	2	9

TABLE XII-A.

INFIRMITIES BY SELECTED CASTES, TRIBES AND RACES

In 1901 this table, though then optional, was prepared for *all* castes in the Presidency. In 1911 it was restricted to 27 castes representing 44 per cent of the Hindu and Arunistic population, and to the entire Musalman, Anglo-Indian and Indian Christian communities. The present table shows all castes, tribes or races, in which 100 or more persons have been returned as suffering from one or other of the infirmities.

Persons suffering from more than one infirmity (see title page of Table XII) have been counted separately for each infirmity.

TABLE XIII.

CASTE, TRIBE, RACE OR NATIONALITY.

This table is divided into two parts. Part I shows in alphabetical order the castes, tribes and races returned by the population enumerated in the Presidency, with the principal languages spoken by members of each caste. For castes too small for inclusion in Part II which are confined to limited areas, the last column shows exactly where they are found.

Particulars of the nationalities included under the term "European and Allied Races" and of the tribes of Musalmans are given at the end of this part.

Part II shows the districts in which the principal castes, tribes and races are chiefly found. Figures are given here only for those castes, etc., which contribute more than one per mille to the Presidency population, and a district is mentioned only when the caste, tribe or race contributes more than one per mille to the district population.

21 - TECHNICAL DESCRIPTION OF
PRINCIPAL PARTS, ETC.

TABLE XIII

Part II.—Territorial distribution of principal castes etc.—continued

[illegible]

TABLE XIV

CIVIL CONDITION BY AGE FOR SELECTED CASTES.

This table deals with certain selected castes in the districts where they are specially numerous

2 The caste population shown in this table differs from that in Table XIII, because in sorting for the two tables, the amalgamation of sub-castes with the main castes was handled differently

Table XIV
CIVIL CONDITIONS BY AGE FOR
SELECTED COUNTRIES

TABLE XIV
Civil condition by age for selected castes.

TABLE XV.

TERRITORIAL DISTRIBUTION OF THE CHRISTIAN POPULATION BY RACE AND DENOMINATION.

This table shows the denominations of Christians of all races

2 In the table the members of the Syrian Church have all been shown together as a single body but they returned the following sects —

Sect	Number		Principal localities
	Males	Females	
Total	12,105	11,919	
Chaldean	1	15	Malabar (all)
Jacobite	1,791	1,590	South Kanara (843 Males, 881 Females) Malabar (517 Males, 492 Females)
Reformed	220	271	Malabar (221 Males, 225 Females)
Romo Syrian	10,178	10,085	Malabar (10,172 Males, 10,070 Females)
Sect not specified	702	162	Madras (224 Males, 114 Females)

No one returned himself as of the Nestorian sect

3 The following sects and missions have been thrown together under the head "Minor Protestant Denominations" —

Sect	Males	Females	Sect	Males	Females
Total	1,710	1,350			
Adventist ..	262	240	Godavari Delta Mission (Brethren)	167	152
Brethren Mission	1,150	872	Mennonites	3	
Church of God (Faith) Mission	5	2	Moravian	1	1
Ceylon Indian Mission ..	38	26	Open Brethren	54	80
			Pentecost Mission		1

4 Denominations and sects returned by small numbers of persons have, for convenience, been clubbed together under "Others" Particulars of these cases are shown below —

	Males	Females	Race
Armenian (Madras)	28	14	
	8	6	European
Greek	16	3	
Madras	1		European
Salim	1		Do
Tinnevely	4		Do
Nilgiris	1		Do
Malabar	8	1	European M 2 F
Quaker			1; Anglo Indian M 6
Madras	2	5	
Chingleput	1	3	European 1, F 2
Nilgiris	1		Indian M 1, F 1
			European

TABLE XVI.

EUROPEAN AND ALLIED RACES AND ANGLO-INDIANS BY AGE.

This table is divided into two parts — one for districts and States and the other for cities.

Fourteen Americans, enumerated in the city of Madrid, have been included in the 'European and allied races'. Eight of them were male (age 0-10, 2-10-16, 1-18, 0-2, 30-39, 40-50 and over, 2) and the remaining six female (age 0-2, 30-39, 40-50 and over, 1).

The total of 'European and allied races' shown in this table exceeds that in Table XV by 13 per cent (male 1, female 1) the reason being that Europeans who did not return themselves as Christians are not entered in Table XV.

EUROPEAN AND ALLIED RACES AND

TABLE XIX.

SUBSIDIARY OCCUPATIONS OF ACTUAL WORKERS WHO RETURNED A NON-AGRICULTURAL OCCUPATION AS THEIR PRINCIPAL OCCUPATION.

This is an optional table which has been compiled for the first time in this Presidency. It shows the main subsidiary occupations returned by actual workers on 33 non-agricultural occupations. The principal occupation is printed in each case in heavy type and below it in ordinary type the main subsidiary occupations returned.

SUBSIDIARY OCCUPATIONS
OF NON-AGRICULTURALIST

TABLE XIX

Showing the main subsidiary occupations of actual workers who returned a non-agricultural occupation as their principal occupation.

GROUP NUMBER	DESCRIPTION OF OCCUPATION	NUMBER OF ACTUAL WORKERS WHO RETURNED SUBSIDIARY OCCUPATION		GROUP NUMBER	DESCRIPTION OF OCCUPATION	NUMBER OF ACTUAL WORKERS WHO RETURNED SUBSIDIARY OCCUPATION	
		Males	Females			Males	Females

TABLE XXI.

OCCUPATION BY SELECTED CASTES, TRIBES OR RACES

This table shows the principal occupations followed by certain selected castes, tribes and races in the Presidency. In previous censuses, the statistics in the corresponding Table (XVI) referred only to selected localities in which each caste was predominant, but in this table figures are given for the caste throughout the Presidency. On this occasion, under the orders of the Government of Madras, the columns showing the traditional occupation of each caste and the numbers engaged on that occupation have been omitted.
